- ☞ Email doula4u@optonline.net or call 631-581-1439 for a registration form

Orgasmic Birth is a documentary that examines the intimate nature of birth and the powerful role it plays in women's lives when they are permitted to experience it. This documentary asks viewers to reexamine everything they thought they knew about giving birth and the potential it holds.

In **Orgasmic Birth**, world renowned midwife Ina May Gaskin helps us to understand the normal rhythms of labor and the possibility for women to have ecstatic, orgasmic experiences.

Orgasmic Birth looks at how our current system of care during pregnancy, birth, and the postpartum period often disrupts the normal rhythms of birth, and causes a myriad of other problems.

Orgasmic Birth will provide an opportunity to examine your perceptions about childbirth and to consider issues that are crucial to the health and wellbeing of future generations.

~ The way a woman gives birth has the potential to change how she feels about herself forever.

~ The way she feels has consequences for how she mothers and cares for her baby, her relationships, and for society.

~ Every baby deserves to be welcomed into their mother's arms with love and respect.

~ Let your voice be heard in helping to reshape maternity care today to provide the best and safest care for all mothers, babies, and families.
